

I'd like to welcome you to MyThrive.NYC. I have developed this directory with members of my organization. My hope is that it will evolve into a public service guide to transparency for the 40% of seriously mentally ill New Yorkers who go untreated by our current system. Here you can find budget breakdowns, statistics, and policy recommendations. This is not a hopeless cause. The funds are here. As always, I welcome your feedback and would love to discuss.
